**Key to organisations:**

AA= Action Aid  
BNMT= Britain Nepal Medical Trust  
BOND= British Overseas NGOs in Development  
DFID= Department for International Development  
HLW= Healthlink Worldwide  
HU= Health Unlimited  
PopC= Population Concern

\* In discussion, it was clear that many participants were unsure what was meant by this category. When the idea of a '10 best list' was explained as a type of signposting resource that identified key materials or web-based resources on a topic and organisations/individuals working on that topic, together with details of how to locate them many participants indicated an interest in getting this type of information, particularly by e-mail.
